FUN WITH BOXES

EVEN MORE FUN!

THIS IS A COMMENT BOX!

A `commentbox` is a box for minimal highlighting of text. It lacks the ornamentation of `paperbox`, but it can handle being broken over a column.

WEAPON, +1, +2, OR +3

Weapon (any), uncommon (+1), rare (+2), or very rare (+3)

Nulla malesuada porttitor diam. Donec felis erat, congue non, volutpat at, tincidunt tristique, libero. Vivamus viverra fermentum felis. Donec nonummy pellentesque ante. Phasellus adipiscing semper elit. Proin fermentum massa ac quam. Sed diam turpis, molestie vitae, placerat a, molestie nec, leo. Maecenas lacinia. Nam ipsum ligula, eleifend at, accumsan nec, suscipit a, ipsum. Morbi blandit ligula feugiat magna. Nunc eleifend consequat lorem. Sed lacinia nulla vitae enim. Pellentesque tincidunt purus vel magna.

BEHOLD, THE PAPERBOX!

The `paperbox` is used as a sidebar. It does not break over columns and is best used with a `figure` environment to float it to one corner of the page where the surrounding text can then flow around it.

Integer non enim. Praesent euismod nunc eu purus. Donec bibendum quam in tellus. Nullam cursus pulvinar lectus. Donec et mi. Nam vulputate metus eu enim. Vestibulum pellentesque felis eu massa.

SPELLS

BEAUTIFUL TYPESETTING

4th-level illusion

Casting Time: 1 action

Range: 5 feet

Components: S, M (ink and parchment, which the spell consumes)

Duration: Until dispelled

You are able to transform a written message of any length into a beautiful scroll. All creatures within range that can see the scroll must make a wisdom saving throw or be charmed by you until the spell ends.

While the creature is charmed by you, they cannot take their eyes off the scroll and cannot willingly move away from the scroll. Also, the targets can make a wisdom saving throw at the end of each of their turns. On a success, they are no longer charmed.

COLORS

This package provides several global color variables to style `commentbox`, `quotebox`, `paperbox`, and `dndtable` environments.

Color	Description
<code>commentboxcolor</code>	Controls <code>commentbox</code> background.
<code>paperboxcolor</code>	Controls <code>paperbox</code> background.
<code>quoteboxcolor</code>	Controls <code>quotebox</code> background.
<code>tablecolor</code>	Controls background of even <code>dndtable</code> rows.

See Table 1 for a list of accent colors that match the core books.

- Use `\setthemecolor[<color>]` to set `themecolor`, `commentcolor`, `paperboxcolor`, and `tablecolor` to a specific color.

- Calling `\setthemecolor` without an argument sets those colors to the current `themecolor`.
- `commentbox`, `dndtable`, `paperbox`, and `quoteboxcolor` also accept an optional color argument to set the color for a single instance.
